Tired of the same old games that have been around since your parents were your age? Sign up to play some of the newest and most exciting games out there. Make your own 3D world in Planet, create block structures as fast as you can in Tuki, Build your own highway in Tokyo Highway, solve an escape room in a box in Unlock, and strategically place buildings in Tiny Towns. If any of those different game ideas sound interesting to you, this enrichment would be a great choice!!
